**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 28 is rejected under 35 U.S.C. 102(b) as being anticipated by Hashimoto. Hashimoto discloses an outboard motor 10 comprising an internal combustion engine 12 and a cowling 21,22 surrounding the engine, the cowling 21,22 comprising an external wall portion 27 and an internal wall portion 22 together defining an airflow space 28 through which atmospheric air flows, at least one of the external and internal wall portions having at least one cooling fin 44 projecting into the airflow space 28, the internal wall portion and the external wall portion are each substantially made from nonferrous material lightweight plastic, the cowling having an inlet port 36 through which atmospheric air outside of the outboard motor enters the airflow space 28 so as to flow over the at least one cooling fin, and at least one outlet port 26 through which a substantial portion of the atmospheric air from the inlet port exits to an external location of the cowling through the engine induction system and exhaust outlet.

***Allowable Subject Matter***

3. Claims 1-13, 15-27 and 29-31 are allowed.

***Response to Arguments***

4. Applicant's arguments filed January 23, 2006 and concerning claim 28 have been fully considered but they are not persuasive. The air entering inlet 36 of Hashimoto flows over the cooling fins 44 and exits outlet port 26 whereby it flows to an area outside the cowling through the engine induction system and the engine exhaust outlets. In view of this, all of the claim limitations of claim 28 are anticipated by Hashimoto.

***Conclusion***

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
